Decúbito dorsal

Decúbito lateral

Decúbito prono

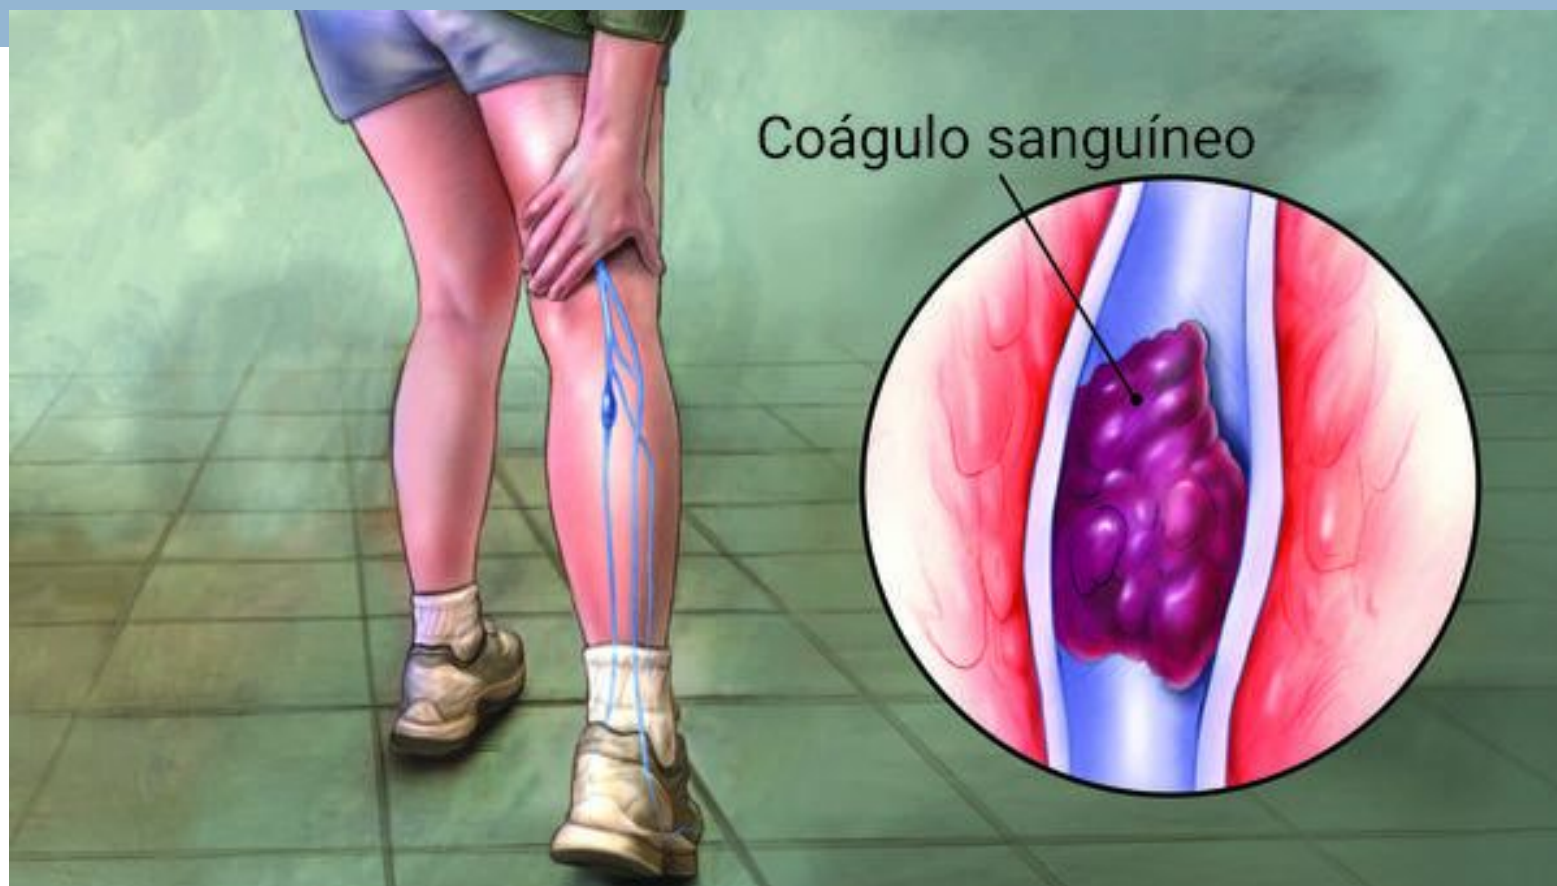

Examen Vascular Periférico

Sistema Venoso

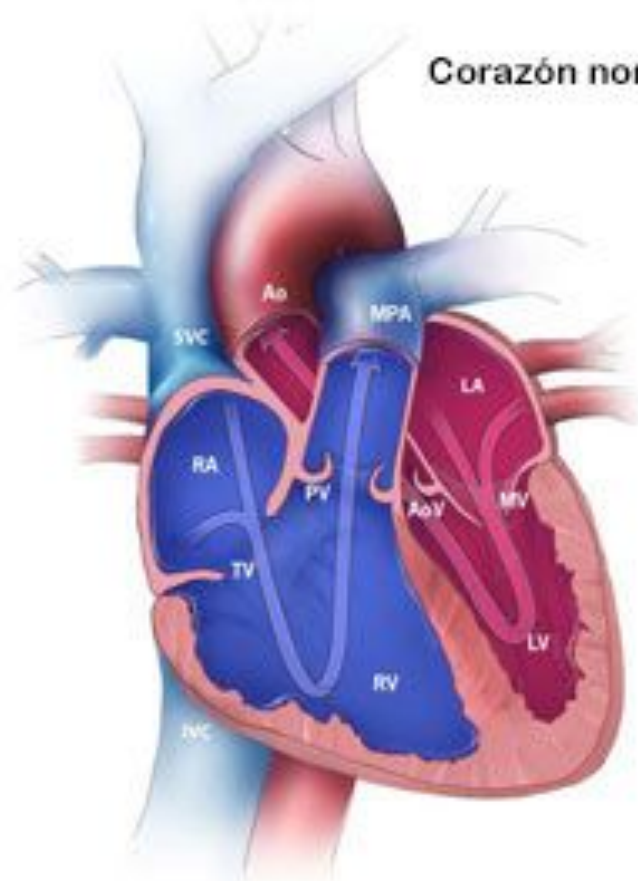

- Trombosis venosa superficial

Coágulo sanguíneo

Corazón normal

RA, Right Atrium
RV, Right Ventricle
LA, Left Atrium
LV, Left Ventricle

SVC, Superior Vena Cave
IVC, Inferior Vena Cave
MPA, Main Pulmonary Artery
Ao, Aorta

TV, Tricuspid Valve
MV, Mitral Valve
PV, Pulmonary Valve
AoV, Aortic Valve

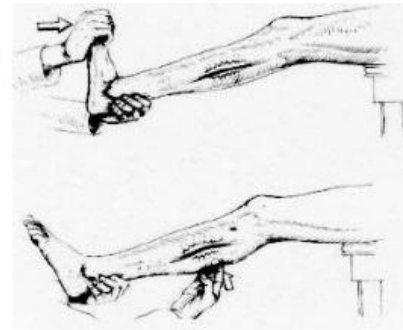

Examen Vascular Periférico

Sistema Venoso

- Trombosis venosa profunda

SIGNO DE HOMANS

Examen Vascular Periférico

Insuficiencia arterial crónica v/s aguda

Claudicación, dolor, frío, cianosis, necrosis

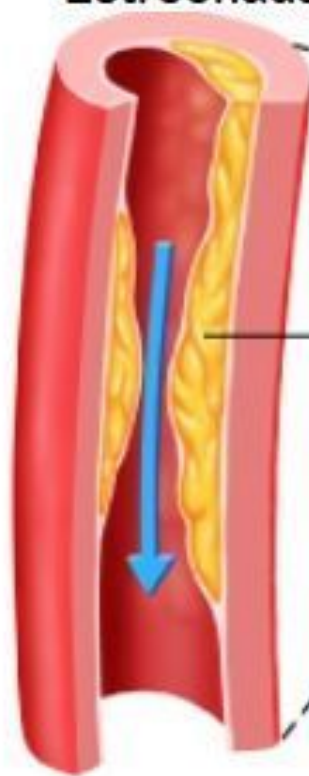

**Arteria
Normal**

**Arteria
Aterosclerótica
Estrechada**

Placa

Examen Vascular Periférico

Insuficiencia arterial crónica v/s aguda

Claudicación, dolor, frío, cianosis, necrosis

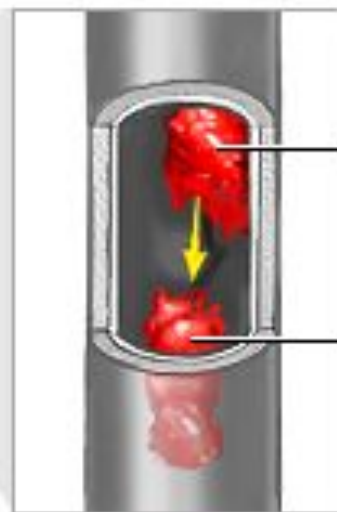

Fig. Isquemia crítica pie derecho

Suministro de
sangre arterial
en la pierna

Coágulo
o trombo

Embolia
liberándose
del coágulo

Embolia alojada
en un nuevo sitio,
bloqueando la
circulación
sanguínea

Figura 2. Gangrena digital distal.
